

DiGi TEX-R

REACTIVE INKS FOR TEXTILE PRINTING

DiGiTEX – R Ink are based on standard Reactive Dyes for Textile printing and are suitable for printing on multi - fabrics (cotton, viscose, silk, linen, wool) using printers with Piezo print heads. Available in low, medium & high viscosities, **DiGiTEX – R** inks with high quality have brightest colors and highest light fastness in the industry.

Suitable Fabrics & Applications:

- Cotton & Viscose fabrics for Home Textile & Fashion garments
- Printing on Silk, Modified Lycra fashion garments.
- Wool & Linen fabrics.

Features:

- High color yield & brilliancy in shades.
- Enhanced print reproducibility.
- Excellent Wash & Light fastness.
- Excellent coverage with high image definition.
- Quick drying ensures easy handling.
- Improves head condition and life as it prints.
